Tab-Lock Retaining Angles - 1 or 2 Sets 1. Nominal deductions will be made to the opening size given. 2. Multiple-panel units are shipped with the panels factory-assembled, to a maximum of 48ft<sup>2</sup>. When jackshafting is designated, it will be installed.

Please note if individual damper panels should be shipped loose. 3. Dampers with multiple panels in both width and height require structural support (by others). It is recommended that large openings be divided with structural members such that dampers will span either the width or height of each opening between the structural members with a single panel. 4. This damper is designed to operate in a clean, dry environment. For proper operation, dampers must be installed square, plumb, and without racking.

5. Approximate shipping weight is 5.5 lbs./sq.ft.

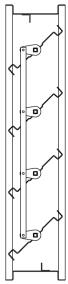

NOTES

### **DAMPER SIZES**

| Panels         | Min Panel  | Max Single Panel |  |  |  |  |
|----------------|------------|------------------|--|--|--|--|
| Parallel Blade | 6"W x 6"H  | 48"W x 72"H      |  |  |  |  |
| Opposed Blade  | 6"W x 11"H | 48"W x 72"H      |  |  |  |  |

Flat 16 GA. Head and Sill on all dampers under 14" high.

Steel Control Damper • 6" Single Thickness Blades • Parallel (GD1) or Opposed (GD2) • 200°F Max Temperature

#### OPERATIONAL RATING

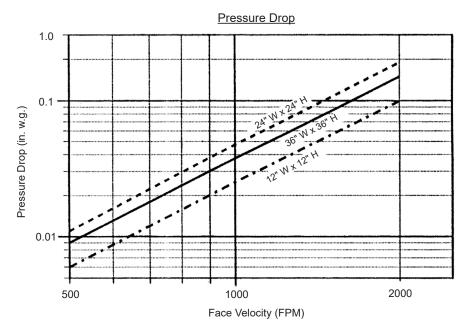

Maximum Differential Pressure: 4 in.wg (1000 Pa) Maximum Face Velocity: 2000 fpm (10 m/s)

#### LEAKAGE RATING

Leakage with optional seals (vinyl on blade edges and stainless steel on jamb) shall not exceed 4.0 CFM per sq.ft. at 1 in.wg differential pressure and a temperature of 70°F, with a minimum of 0.85 in. lbs. of torque applied to the damper shaft. Data is based on a 48"W x 48"H sample tested in accordance with AMCA Standard 500, figure 5.4 or 5.5.

Values shown are derived from tests performed in accordance with AMCA Standard 500 and are stated in SCFM at 1 in.wg. For leakage values at greater pressures, use the conversion factors in the table below.

| Pressure (in. w.g.) | Conversion Factor |  |  |  |  |
|---------------------|-------------------|--|--|--|--|
| 2                   | 1.41              |  |  |  |  |
| 3                   | 1.75              |  |  |  |  |
| 4                   | 2.00              |  |  |  |  |
